Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

Version 4.1

This is an addendum to Utah Leads Together 2.0. The Governor’s Office of Management and Budget and the Utah Department of Health, with assistance from Leavitt Partners, have developed recommendations to support the roadmap for reactivation of the Utah economy while stabilizing public health.

**Overview of Guidelines for General Public and Employers**

- General public and employers take extreme precautions
- Face coverings worn in public settings where other social distancing measures are difficult to maintain
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds
  - Use hand sanitizer frequently
  - Avoid touching your face
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands)
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces)
- Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department
  - Do not shake hands
  - In-person interactions limited to individual households; interactions in groups of 10 or fewer
  - Increase virtual interactions
  - Leave home infrequently; stay 6 feet away from others when outside the home
  - Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces)
  - Give sick family members their own room if possible and keep the door closed
  - Have only one family member care for the sick individual
  - Schools closed
  - Employers and volunteers of businesses operate remotely, unless not possible
  - Employers evaluate workforce strategy, concerns, and enact strategies to minimize economic impact

**High Risk**

- General public and employers take extreme precautions
- Face coverings worn in public settings where other social distancing measures are difficult to maintain
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds
  - Use hand sanitizer frequently
  - Avoid touching your face
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands)
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces)
- Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department
  - Do not shake hands
  - In-person interactions in decreased group sizes that enable all social distancing guidelines to be maintained; social interactions in groups of 20 or fewer
  - Increase virtual interactions
  - Leave home infrequently, stay 6 feet away from others when outside the home
  - Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces)
  - Give sick family members their own room if possible and keep the door closed
  - Have only one family member care for the sick individual
  - Schools closed
  - Employers and volunteers of businesses operate remotely, unless not possible

**Moderate Risk**

- General public and employers take reasonable precautions
- Face coverings worn in public settings where other social distancing measures are difficult to maintain
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds
  - Use hand sanitizer frequently
  - Avoid touching your face
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands)
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces)
- Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department
  - Do not shake hands
  - In-person interactions in decreased group sizes that enable all social distancing guidelines to be maintained; social interactions in groups of 50 or fewer
  - Stay 6 feet away from others when outside the home
  - Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces)
  - Give sick family members their own room if possible and keep the door closed
  - Have only one family member care for the sick individual
  - Schools open
  - All businesses operating
  - Employers exercise discretion with remote work and returning to onsite work

**Low Risk**

- General public and employers take reasonable precautions
- Face coverings worn in public settings where other social distancing measures are difficult to maintain
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds
  - Use hand sanitizer frequently
  - Avoid touching your face
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands)
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces)
- Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department
  - Do not shake hands
  - In-person interactions in decreased group sizes that enable all social distancing guidelines to be maintained; social interactions in groups of 50 or fewer
  - Stay 6 feet away from others when outside the home
  - Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces)
  - Give sick family members their own room if possible and keep the door closed
  - Have only one family member care for the sick individual
  - Schools open
  - All businesses operating
  - Employers exercise discretion with remote work and returning to onsite work

**New Normal Risk**

- General public and employers take reasonable precautions
- All businesses operating
- Schools are open
- Traveling restrictions mostly lifted, self-monitor symptoms 14 days upon return; avoid areas of high transmission
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, handrails, shopping carts, check-out counters, restroom surfaces)

Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department.

<th>New Normal Risk</th>
</tr>
</thead>
</table>
| • General public takes extreme precautions  
  • Stay 6 feet away from others when outside the home unless not possible  
  • Face coverings worn in settings where other social distancing measures are difficult to maintain  
  • In-person interactions limited to individual households; increase virtual interactions  
  • Essential travel only. Leave home infrequently  
  • Social interactions in groups of 10 or fewer | • General public takes extreme precautions  
  • Stay 6 feet away from others when outside the home unless not possible  
  • Face coverings worn in settings where other social distancing measures are difficult to maintain  
  • In-person interactions limited to individual households and those who have been following recommended distancing/hygiene guidelines; increase use of virtual interactions  
  • Leave home infrequently  
  • Private, social interactions that occur without oversight by a formal organization are allowable in groups of 20 or fewer | • General public takes reasonable precautions  
  • Stay 6 feet away from others when outside the home  
  • Face coverings worn in settings where other social distancing measures are difficult to maintain  
  • Private, social interactions that occur without oversight by a formal organization are allowable in groups of 50 or fewer; this may be increased incrementally based on data & milestone trends | • General public takes reasonable precautions  
  • Interactions allowable in larger groups, with strict hygiene measures and symptom monitoring  
  • Evaluate mass gatherings based on monitoring and testing rates |

### Use of Face Coverings

| Face coverings (e.g. mask, scarf, gaiter, bandana) worn in public settings where other social distancing measures are difficult to maintain  
  • Change or launder cloth face coverings routinely  
  • Individuals should stay 6 feet away from others even when wearing a face covering  
  • Cloth face coverings should not be placed on young children under the age of 2, anyone who has trouble breathing, or is unconscious, incapacitated, or otherwise unable to remove the mask without assistance | Face coverings (e.g. mask, scarf, gaiter, bandana) worn in public settings where other social distancing measures are difficult to maintain  
  • Change or launder cloth face coverings routinely  
  • Individuals should stay 6 feet away from others even when wearing a face covering  
  • Cloth face coverings should not be placed on young children under the age of 2, anyone who has trouble breathing, or is unconscious, incapacitated, or otherwise unable to remove the mask without assistance | Face coverings worn in public settings where other social distancing measures are difficult to maintain  
  • Change or launder cloth face coverings routinely  
  • Individuals should stay 6 feet away from others even when wearing a face covering  
  • Cloth face coverings should not be placed on young children under the age of 2, anyone who has trouble breathing, or is unconscious, incapacitated, or otherwise unable to remove the mask without assistance | Face coverings not necessary for the general public |

### Family Gatherings (e.g. Funeral, Wedding, Religious Ceremonies)

| Follow all social guidelines outlined above  
  • Only members of the same household or residence may attend | Follow all social guidelines outlined above  
  • Medium sized group that enables all social distancing guidelines to be followed | Follow all social guidelines outlined above  
  • Interactions allowable in larger groups, with strict hygiene measures and symptom monitoring | Follow all social guidelines outlined above  
  • Interactions allowable in larger groups, with strict hygiene measures and symptom monitoring |

### Children, including Playgrounds

| Follow all social guidelines outlined above  
  • Do not attend school outside the home  
  • Do not arrange or participate in in-person playdates or similar activities  
  • Do not allow children on public playground  
  • Soft closure of schools  
  • Schools may send home food | Follow all social guidelines outlined above  
  • Do not attend school outside the home  
  • Do not arrange or participate in in-person playdates or similar activities  
  • Do not allow children on public playground  
  • Soft closure of schools  
  • Schools may send home food | Follow all social guidelines outlined above  
  • Schools are open, but follow distancing guidelines  
  • Increased cleaning and hygiene regimen  
  • All symptomatic children should stay home from school and childcare, and will be sent home if exhibiting any symptoms  
  • Limit child interaction with other children in public spaces (e.g. playground equipment); a 6-foot distance should be maintained | Follow all social guidelines outlined above  
  • Schools are open, with increased cleaning and hygiene regimen  
  • All symptomatic children should stay home from school and childcare, and will be sent home if exhibiting any symptoms |

\(^5\) Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains

All businesses are open and operating under stricter hygiene and cleaning regimen. Monitoring health of workforce and customers.
Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

### High Risk
- Minimize face-to-face interactions, including with customers (e.g. utilize drive-thru, install partitions)
- Where distancing and hygiene guidelines cannot be followed in full, businesses should consider whether that activity needs to continue for the business to operate
- Eliminate unnecessary travel and cancel or postpone in-person meetings, conferences, workshops, and training sessions
- Require employees to self-quarantine when returning from high-risk areas
- Employers evaluate workforce strategy and concerns and enact strategies to minimize economic impact
- Employers must not allow any individuals under isolation or quarantine to come to work at any time unless authorized by LHD

### Moderate Risk
- Minimize face-to-face interactions, including with customers (e.g. utilize drive-thru, install partitions)
- Where distancing and hygiene guidelines cannot be followed in full, businesses should consider whether that activity needs to continue for the business to operate
- Eliminate unnecessary travel and cancel or postpone in-person meetings, conferences, workshops, and training sessions
- Require employees to self-quarantine when returning from high-risk areas
- Employers evaluate workforce strategy and concerns and enact strategies to minimize economic impact
- Employers must not allow any individuals under isolation or quarantine to come to work at any time unless authorized by LHD

### Low Risk
- Encourage remote work when possible; employers exercise discretion with returning to onsite work
- Workplaces comply with distancing and hygiene guidelines
- Limit unnecessary travel
- Require employees to self-quarantine when returning from high-risk areas
- Employers evaluate workforce strategy and concerns and enact strategies to minimize economic impact
- Employers must not allow any individuals under isolation or quarantine to come to work at any time unless authorized by LHD

---

### New Normal Risk
- Dine-in restaurants operating under proper safety precautions for staff and customers

---

### Restaurants, Food Service Establishments, Bars, Food Trucks, Convenience Stores

#### Takeout, curbside pickup or delivery only.
- Extreme caution taken in food preparation. Physical distancing maintained. Contactless payment encouraged. Create safe environment for staff
  - Follow all employer guidelines outlined on page 7
  - Takeout only. This includes delivery, curbside pickup, third-party delivery (e.g., DoorDash, Grubhub, Uber Eats)
  - Symptom checking of employees
  - Stagger workstations so workers can maintain a 6-foot distance and do not face one another
  - Encourage contactless payment; if not possible, disinfect transaction terminal between customers
  - Staff wear face coverings
  - Staff must sanitize hands between handling payment options and food/containers
  - When delivering food, drivers use hand sanitizer before passing delivery to customers and use disposable containers/packaging that do not need to be returned
  - Employers provide personal protection equipment such as face coverings, hair nets, gloves, overalls
  - Customers voluntarily provide contact information to assist with contact tracing efforts

#### Takeout, curbside pickup, or delivery options encouraged.
- Dine-in services available with extreme precaution, following strict guidelines around physical distancing and staff monitoring. Contactless payment encouraged. Create safe environment for staff
  - Follow all employer guidelines outlined on page 7
  - For dine-in services:
    - Dine-in services, including buffets and bars, may be open under the following requirements outlined in the appendix on page 16
    - Symptom checking of employees
    - Staff wear face coverings
    - Staff must sanitize hands between handling payment options and food/containers
    - When delivering food, drivers use hand sanitizer before passing delivery to customers and use disposable containers/packaging that do not need to be returned

#### Dine-in service and bars are opened, with tables arranged so there is appropriate distance between diners. Increased hygiene practices for customers and staff
  - Follow all employer guidelines outlined on page 7
  - For dine-in services:
    - Dine-in services, including buffets and bars, may be open under the following requirements outlined in the appendix on page 16
    - Symptom checking of employees
    - Staff wear face coverings
    - Stagger workstations so workers can maintain a 6-foot distance and do not face one another
    - Encourage contactless payment; if not possible, disinfect transaction terminal between customers
    - Staff must sanitize hands between handling payment options and food/containers
    - When delivering food, drivers use hand sanitizer before passing delivery to customers and use disposable containers/packaging that do not need to be returned

---

2. Dine-in services not recommended during moderate risk conditions. However, if dine-in services are opened, the following precautions should be taken

### Accommodations

#### Specific Guidance for Grocery & Pharmacy
- Prevent people from self-serving any food items that are ready to eat and are not prepackaged; does not include fresh produce
- Only make bulk items available if they are individually packaged
- Do not allow individuals to bring their own bags, mugs, or other reusable items from home
- If possible, waive prescription delivery fees

</table>

- **Events**
  - Spectators encouraged to attend remotely
  - A 10-foot distance must be maintained between individual household groups at all times while seated
  - For reserved seating facilities, facility capacity is dependent on ability to block reserved seats (demonstrated on digital seat map) to ensure safe radius
  - Set an established window time for high-risk groups to come in without pressure from crowds and/or separate entrances and queues
  - Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g., museums, zoos, aquariums, aviaries, botanical gardens)
  - Congregating at any point is not allowed
  - Encourage contactless payment; disinfect between transactions and comply with other retail recommendations
  - Participants (e.g., players, performers, actors) in events should have their symptoms checked
  - Electronic tickets and playbills encouraged in place of paper

- **Concessions:*
  - Serving and seating protocols consistent with restaurant guidance
  - Maintain 6-foot distancing for all lines
  - Encourage contactless payment
  - To the extent reasonable, serve grab-and-go food items
  - Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

- **High Risk
  - Follow all employer guidelines outlined on page 7
  - Spectators encouraged to attend remotely
  - A 10-foot distance must be maintained between individual household groups at all times while seated
  - For reserved seating facilities, facility capacity is dependent on ability to block reserved seats (demonstrated on digital seat map) to ensure safe radius
  - Set an established window time for high-risk groups to come in without pressure from crowds and/or separate entrances and queues
  - Limit the number of people in a confined area to enable adequate distancing at all times
  - Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g., museums, zoos, aquariums, aviaries, botanical gardens)
  - Congregating at any point is not allowed
  - Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations
  - Participants (e.g., players, performers, actors) in events should have their symptoms checked
  - Electronic tickets and playbills encouraged in place of paper

### Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

#### Personal Services (including barbers, cosmetologists, body technicians, nail artists, tanning, etc.)

**High Risk**
- Extreme limitations of this industry
  - Follow all employer guidelines outlined on page 7
  - Business that rely on close human interaction encouraged not to stay open
  - Symptom checking in all interactions
  - Face coverings worn by both service provider and client

**Moderate Risk**
- Industry open under strict hygiene protocols. Service provider and customer wear face coverings. Meticulous monitoring of symptoms
  - Follow all employer guidelines outlined on page 7
  - Both service provider and client wear face coverings. Exception given for clients when mask interferes with service
  - Symptom checking of all staff at the beginning of each shift, with a log that can be made available for inspection by health department
  - Customers must have their symptoms checked before services are rendered
  - Appointments scheduled with enough time allowed to disinfect all procedure surfaces between services
  - Service provider maintains log of appointments with customer contact information to assist with contact tracing efforts
  - When services are not being directly provided, 6 feet of physical distance must be maintained. This includes waiting areas and between clients at all times
  - Contactless payment encouraged; financial equipment disinfected after each transaction

**Low Risk**
- Industry open under strict hygiene protocols. Service provider and customer wear face coverings. Meticulous monitoring of symptoms
  - Follow all employer guidelines outlined on page 7
  - Both service provider and client wear face coverings. Exception given for clients when mask interferes with service
  - Symptom checking of all staff at the beginning of each shift, with a log that can be made available for inspection by health department
  - Screen clients upon entering the facility with a questionnaire asking about symptoms, travel, and any sicknesses in the home
  - Procedure/service area surfaces are disinfected between each client
  - Appointments scheduled with enough time allowed to disinfect all procedure surfaces between services
  - Service provider maintains log of appointments with customer contact information to assist with contact tracing efforts
  - When services are not being directly provided, 6 feet of physical distance must be maintained. This includes in waiting areas and between clients at all times
  - Contactless payment encouraged; financial equipment disinfected after each transaction

**New Normal Risk**
- Industry open with strict hygiene regimen and symptom monitoring

#### Home Repair

**High Risk**
- Operates under the General Guidelines for Employers. Strict hygiene
  - Follow all employer guidelines outlined on page 7
  - Inquire if homes have symptomatic individuals and exercise caution
  - Monitor symptoms of employees
  - Wash or sanitize hands before and after leaving a home
  - Wear face coverings and gloves, changing between each site
  - Disinfect tools after each site
  - Share estimates, invoices, and other documentation electronically

**Moderate Risk**
- Operates under the General Guidelines for Employers. Strict hygiene
  - Follow all employer guidelines outlined on page 7
  - Inquire if homes have symptomatic individuals and exercise caution
  - Monitor symptoms of employees
  - Wash or sanitize hands before and after leaving a home
  - Wear face coverings and gloves, changing between each site
  - Disinfect tools after each site
  - Share estimates, invoices, and other documentation electronically

**Low Risk**
- Operates under the General Guidelines for Employers. Strict hygiene
  - Follow all employer guidelines outlined on page 7
  - Inquire if homes have symptomatic individuals and exercise caution
  - Monitor symptoms of employees
  - Wash or sanitize hands before and after leaving a home
  - Wear face coverings and gloves, changing between each site
  - Disinfect tools after each site
  - Share estimates, invoices, and other documentation electronically

**New Normal Risk**
- Operates under the General Guidelines for Employers. Increased hygiene
  - Follow all employer guidelines outlined on page 7
  - Same as high-risk column, except that employers do not need to actively monitor symptoms; employees self-report

### Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

#### High Risk
- Enhanced cleaning and disinfecting
- Encourage children to be 6 feet apart as much as possible
- Groups must be restricted to groups of 10 unless a wall can physically separate each group
- Limit mixing the groups of children (keep in separate rooms, allow on the playground at different times)
- Curbside drop off and pick up
- All individuals must wash hands with soap and running water upon arrival
- Don’t use toys that can’t be washed and disinfected
- Children and staff should stay home if they’re sick
- Children and staff are screened for symptoms
- If there is a confirmed case, facility must be closed and alert local health department
- All high-touch surfaces should be cleaned and disinfected after each use (e.g., toys, keyboards, desks, remote controls)

#### Moderate Risk
- Enhanced cleaning and disinfecting
- Encourage children to be 6 feet apart as much as possible
- Groups must be restricted to groups of 20 unless a wall can physically separate each group
- Limit mixing the groups of children (keep in separate rooms, allow on the playground at different times)
- Curbside drop off and pick up
- All individuals must wash hands with soap and running water upon arrival
- Don’t use toys that can’t be washed and disinfected
- Children and staff should stay home if they’re sick
- Children and staff are screened for symptoms
- If there is a confirmed case, facility must be closed and alert local health department
- All high-touch surfaces should be cleaned and disinfected after each use (e.g., toys, keyboards, desks, remote controls)

#### Low Risk
- Enhanced cleaning and disinfecting
- Limit mixing the groups of children (keep in separate rooms, allow on the playground at different times)
- Children from the same household are kept in the same group whenever possible
- Don’t use toys that can’t be washed and disinfected
- All individuals must wash hands with soap and running water upon arrival
- Children and staff should stay home if they’re sick
- Children and staff are screened for symptoms
- If there is a confirmed case, facility must be closed and alert local health department
- All high-touch surfaces should be cleaned and disinfected regularly
- The provider must restrict offsite activities to places or environments where social distance and proper cleaning practices can be controlled

#### New Normal Risk
- Enhanced cleaning and disinfecting
- Don’t use toys that can’t be cleaned
- Children and staff should stay home if they’re sick

#### Hospital Settings and Ambulatory Surgical Facilities
Each hospital and ambulatory surgical center operating in Utah shall follow the protocols developed by the Utah Hospital Association in consultation with the Utah Department of Health, titled "Utah Hospital Roadmap for Resuming Elective Procedures 2.0".

#### Non-hospital Setting, Including Dentistry
Adhere to all protocols set forth in the following state public health order: [https://coronavirus-download.utah.gov/Health/state%20public%20health%20order.20.04.21.pdf](https://coronavirus-download.utah.gov/Health/state%20public%20health%20order.20.04.21.pdf)
Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

General Guidelines for Employers

Best Practices for Employers

- Those who are, or work with, high-risk populations, should undergo daily screening/symptom monitoring, and be tested if they begin to experience COVID-19 symptoms. High-risk populations should take extra precautions to avoid close contact with multiple people.
- Use online conferencing, email, or telephone in place of in-person meetings, even when people are in the same building.
- Employees and customers should not congregate in groups; if your business involves a waiting area, customers should wait outside or in their cars.
- Encourage contactless pay options if possible; otherwise immediately disinfect transaction equipment.
- Make regular announcements to remind employees and customers to follow distancing guidelines. Use floor markings to mark appropriate physical distance where appropriate.
- Encourage digital files rather than paper formats (e.g., documentation, invoices, inspections, forms, agendas).
- Consider what reserve supplies may be necessary to obtain (e.g., cleaning supplies, gloves or other protective equipment).
- Consider the possibility of interruptions to water or power that might force closure.
- Establish and maintain open dialogue with local communities, including key vendors and suppliers, exploring contingencies and sharing appropriate decisions about foodservice, transportation, and other services.
- Identify a workplace coordinator who will be responsible for COVID-19 issues and their impact in the workplace.
- If relevant, update emergency communication plan with key contacts and backups, chain of communications, and processes.
- Identify what reserve supplies may be necessary to obtain (e.g., cleaning supplies, gloves or other protective equipment).
- Provide disposable disinfecting wipes (for use on high-touch surfaces, provide no-touch trash bins).
- Laundry: wear gloves, use warmest appropriate water setting, dry items completely, do not shake dirty laundry, launder items that have come in contact with COVID-19 separately.
- Make hand sanitizer, soap and water, or effective disinfectant readily available. Posters that encourage hand and respiratory hygiene.

Cleaning & Hygiene Guidelines for Employers

- Promote etiquette for coughing, sneezing, and handwashing; avoid touching face, especially eyes, nose, and mouth; place posters that encourage hand and respiratory hygiene.
- Face coverings should be worn by employees and patrons, especially when difficult or impossible to maintain 6-foot distance.
- Ensure adequate air circulation and post tips on how to stop the spread of germs.
- When possible, discourage sharing of work tools and equipment.
- Make a list of high-touch surfaces requiring routine disinfecting and perform routine environmental cleaning (e.g., elevator buttons, workstations, countertops, handrails, doorknobs, breakrooms, bathrooms, common areas), either twice a day or after each use. Keep a logbook of cleaning regimen. Those cleaning should:
  - Wear gloves
  - Prior to disinfecting, clean surfaces with soap and water if soiled
  - Use EPA-approved disinfectant, industrial cleaner, diluted bleach, or alcohol solutions.
- Provide disposable disinfecting wipes for employee use on high-touch surfaces; provide no-touch trash bins.
- Laundry: wear gloves, use warmest appropriate water setting, dry items completely, do not shake dirty laundry, launder items that have come in contact with COVID-19 separately.
- Make hand sanitizer, soap and water, or effective disinfectant readily available. Provide pop-up handwashing stations or facilities where necessary (e.g., open houses, construction sites).
- Personal Protection Equipment (PPE) should not be shared and should be disposed of properly.
- After using gloves, employees should wash their hands.

Employees Monitoring Symptoms

- Employees who are sick or who appear to have COVID-19 symptoms should be separated from other employees/customers immediately and sent home; immediately clean and disinfect areas the sick employee visited.
- Train managers/leadership to spot symptoms of COVID-19 and to be clear on relevant protocols.
- Monitor employee symptoms, especially fever (100.4 degrees Fahrenheit/38 degrees Celsius, or above). If employees take simple medications such as acetaminophen, ibuprofen, or aspirin, they should take temperature beforehand.
- Do not allow employees to come to work if they feel sick; create or maintain non-punitive leave policies, so employees do not feel pressured to come to work if they are sick. Remind employees to report any illness to a manager, especially if sick with fever, cough, trouble breathing, sore throat, muscle aches and pains, sudden changes in smell or taste.
- If an employee is confirmed COVID-19 positive, employers should inform close contact employees while maintaining confidentiality; close contact employees should self-monitor for symptoms for 14 days.

Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains.
Appendix: Guidelines for Dine-in Restaurants Open in Orange & Yellow

Operational Practice

- Limit tables to groups of 10, preferably members of the same household
- Groups of patrons at a table must maintain a distance of 6 feet from patrons of other parties at all times. Either move tables or mark off tables not to be used
- In waiting areas, a 6-foot distance must be maintained between parties, whether indoor or outdoor
- Maintain signage to remind individuals from separate parties to stand at least 6 feet apart; waiting area has floor markers to indicate proper spacing
- Hosts preferably open doors for customers and guide them to their seats to prevent traffic or congregating; hand sanitizer available at door
- Recommendation that upon entry, hosts point guests to signage that includes the following information:
  - Outlines symptoms and encourages that if the patron, or someone they live with, has experienced COVID-19 symptoms, to please order takeout instead
  - Recommendation for high-risk individuals to order takeout/delivery instead of dining in for the protection of that individual
- Manager checks each employee for symptoms before every shift with temperatures taken and asks if any member of the employee’s household has tested positive for COVID-19 in the past 14 days. Log must be kept and available for inspection by the local health officer
- Staff must wear face coverings at all times and perform hand hygiene between interactions with each table
- Cups, lids, napkins and straws must be handed directly to customers by staff
- Do not place utensils on table until patron is seated
- Encourage contactless and non-signature payment; when not possible, card and payment stations must be sanitized after each use. Staff must sanitize hands between handling payment options and food/containers
- Staff avoid touching items that have been placed on the table (menus, plates, utensils, pens, cups, etc.). The table will be cleared by a dedicated staff member once all guests have left
- Dedicated staff member sanitizes the area occupied by customers upon departure including tables, menus, pens, salt and pepper shakers, etc. Consider use of disposable items if necessary
- The restaurant may not operate if PPE, EPA-approved disinfectants and sanitizers, soap, and other necessary cleaning supplies are not available; sanitizer is effective against COVID-19. Chlorine (bleach) at 100-200 ppm is recommended
- Hand sanitizer must be available immediately adjacent to bathrooms
- Close restaurant for cleaning and disinfecting in the morning, afternoon, and evening. Cleaning and disinfecting includes all tables, chairs, door handles, floors, bathrooms, and any high-touch surfaces
- Buffet and self-serve restaurants will provide servers who will serve the meals from buffet to limit exposure. Patrons will not be allowed within 6 feet of the food serving area
- Stagger workstations so employees are not facing one another and are 6 feet apart
- To-go boxes, pizza boxes, paper cups, and any other paper product that touches food must be treated as food
- Staff must use gloves when handling ready-to-eat foods (including ice). Gloves are not required when handling foods that have yet to be cooked
- Indoor playgrounds in restaurants remain closed

---

10 Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains
11 High-risk individuals are defined as people 65 years and older, people who live in a nursing home or long-term care facility, people of all ages with underlying medical conditions, including lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised (many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications), people with severe obesity, diabetes, chronic kidney disease undergoing dialysis, or liver disease
